M1 Spark

B9ES	standard spark plug
B9ERS	resistive plug, reduce electric noises
B10	"colder" plug for hot conditions
B9EIX	iridium electrode, helps to reduce the consumption

the resistive plugs help to reduce the electrical noises, but in the ignition circuit you must use only one resistive element a time; don't use the resistive plug on the ignition with black cap (delivered since february 2007) please.
